

The ICT-BAS (Institute of Information and Communication Technologies - Bulgarian Academy of Sciences - <http://www.iict.bas.bg/EN/index.html>) opens **one employment position for incoming post-docs** in the following areas:

- advanced computing (supercomputing, high-performance computing, parallel processing, etc.)
- language and semantic technologies
- signal and image processing
- optimisation and intelligent control.

In the "**ACoIn: Advanced Computing for Innovation**" context, 'incoming researcher' is a scientist who has been working outside Bulgaria for more than 2 years during the last 3 years. The position will be opened for 12 months with option to extend till the ACoIn project end (30 September 2015). The salary is compliant to the FP7 Marie Curie rate. Non-EU citizens will need working visa for employment in Bulgaria (and visa applications are made to the Bulgarian embassies in the candidate's country of residence).

If interested, please contact prof. **Dimo Dimov** - e-mail: [dtdim@iinf.bas.bg](mailto:dtdim@iinf.bas.bg)
