Bio: Dario Melpignano – CEO and founder of Neosperience, a company with the mission to change how marketers deal with people, blending empathy in technology.

Paolo Giudici – Professor of Statistics at the Department of Economics and Management of the University of Pavia. Researcher author of 78 scientific publications in internationally refereed journals, and of a Wiley book on Applied data mining. His current research interests are: Financial networks, Financial risk management, Systemic risk, and their application to Financial Technologies.

Ing. Diego Ferri – Software architect and developer for the last 10 years, agile coach and practitioner, co-founder of Looptribe. Tend to get a deep interest in bleeding edge technologies for passion. Bought my first Bitcoin in 2014, loved the crypto-universe ever since.

Marco Pagani – born on 16 May 1985, graduated in law in 2010 at the Università degli Studi di Milano with 110/110 and then attended in 2011 an LLM in international finance at the University College of London. After graduating at the UCL Marco worked at Chiomenti law firm from 2011 to 2017 with a focus on finance and M&A and got his admission to the bar of Milan in 2016. At the end of 2017 he left Chiomenti to develop several projects related to blockchain technology.
